FOR IMMEDIATE RELEASE: 09/10/20

## International DIY Music Artist Twitchitt Drops New Album Online

On August 21, 2020, music sensation and performer Twitchitt released her third full-length studio album “Bubblegum Disturbium” across digital music streaming and download platforms worldwide. Physical disc release will follow in coming weeks. Amidst pandemic limitations, Twitchitt debuted the album at a socially-distanced intimate street show at a First Fridays event in Winnipeg, Canada on September 4th.

Twitchitt is a solo artist who sings, writes, records, and produces all of her music. The album includes collaborations with Cozmic Butterfly and her partner Arrows (Erick Stow). When asked about her music’s genre, Twitchitt says, “It’s a delicate balance between pop and indie, but I’ll sometimes coin 4th-wall-shattering labels for it such as ‘Posercore’ when I get burnt out on people trying to put me in a category that makes sense to them. Then they will tell me I sound like Madonna or Stevie Nicks or Billie Eilish or whatever. So maybe just listen and decide for yourself, haha.”

Twitchitt has been recognized in Winnipeg for her performances at cabaret events, self-produced shows, off-screen promotional appearances, and features on local radio stations. In 2019 and 2020, she toured Western Canada and Southwest United States in promotion of her 2017 album “Alchemical Warfare”.

**About Twitchitt:** Twitchitt is a Canadian international singer, songwriter, music producer and artist. She has released three full-length studio albums since 2015, and regularly performs at events and venues across North America.
